Getting Started

Welcome!

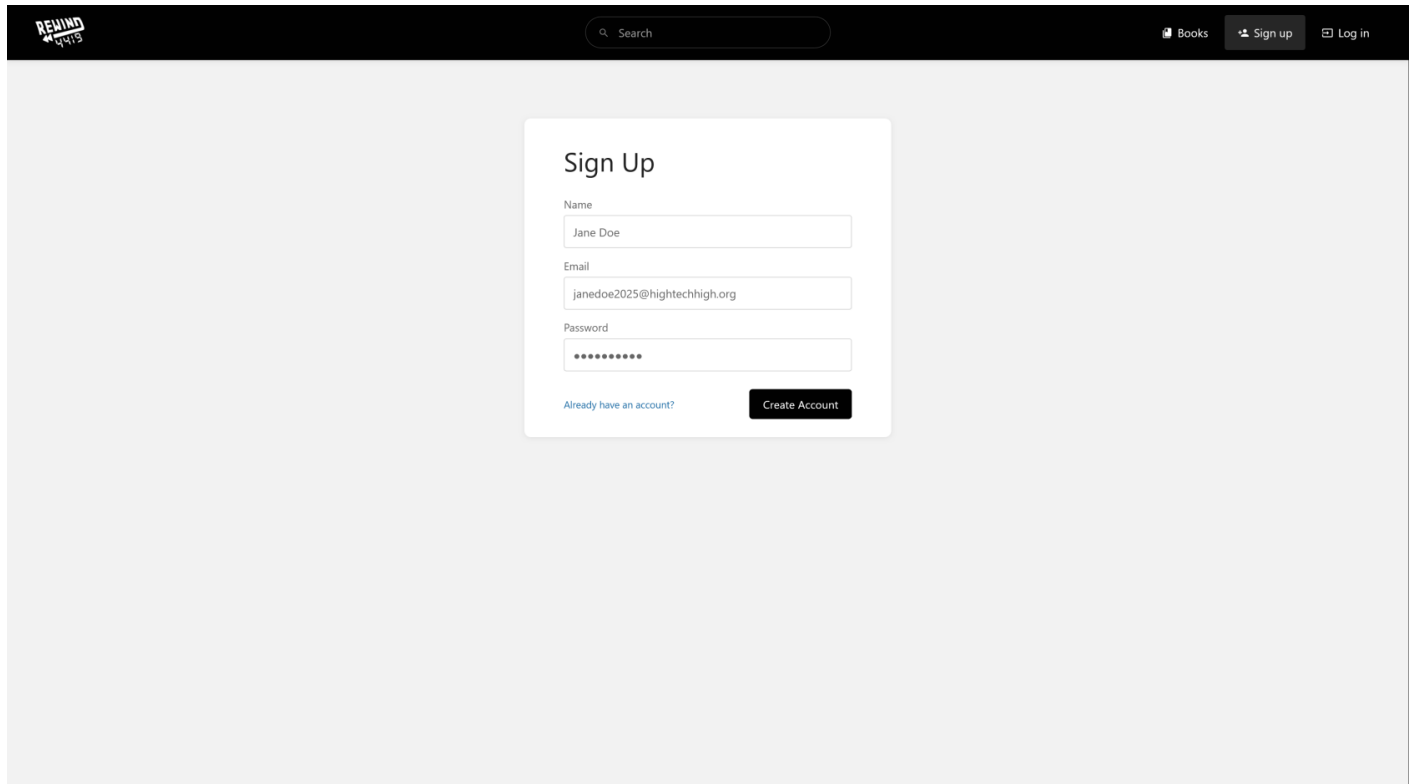

You've made it to the docs page of FRC team 4419. If you are a member of the team start off by [creating an account](#), otherwise, you can browse our public pages without an account!

Creating an Account

Begin by visiting the registration page at docs.roboticsfrc4419.com/register.

A screenshot of the Team Rewind website's registration page. The page has a dark header with the 'REWIND' logo on the left, a search bar in the center, and links for 'Books', 'Sign up', and 'Log in' on the right. The main content area is light gray and features a white 'Sign Up' form. The form includes fields for 'Name' (filled with 'Jane Doe'), 'Email' (filled with 'janedoe2025@hightechhigh.org'), and 'Password' (filled with eight dots). Below the password field, there is a link 'Already have an account?' and a black 'Create Account' button.

If you are a student and member of Team Rewind please sign up using your **full name** and **school email address**

After registration, notify a mentor for approval. This could take a few days.

After a few days you should have full access to the docs!
